

EXPERIENCE

UX Designer, Digital Infuzion

Rockville, MD 2/2018 - present

Collaborate directly with Business Analysts, Information Architects, and Developers in an agile environment to create user experience/interface solutions in support of grantsolutions.gov. Develop UI mockups and prototypes that determine site's interface and functionality, ensure implementations follow usability practices, accessibility, and web standards.

Partner, UX/UI Designer, Gymaze

Washington, DC 8/2016 - present

Work in collaboration with founders, developers and testers in anticipation of successful web and mobile platform launch. Conduct user research, gaining insights into the behaviors and motivations of end users. Create wireframes and prototypes, illustrating complex interactions. Design low- and high-fidelity mock-ups, incorporating solutions for interaction design. Write usability testing questions, facilitate testing with prospective users.

Junior QA Software Tester, Digital Infuzion

Gaithersburg, MD 6/2017 - 2/2018

Supported senior testers in conducting QA tests, monitoring performance of the product, observing and documenting the results of testing process. Created, wrote and executed detailed, comprehensive and well-structured test cases for the product.

Senior Graphic Designer, Digital Infuzion

Gaithersburg, MD 1/2016 - 6/2017

Led art direction for development and maintenance of brand strategy, marketing, advertising, and event materials for the company. Created presentations to assist in corporate meetings, including info graphics and data representation. Rendered unique, graphical elements for business proposals, contributing to the company's success in winning key contracts. Created solutions and recommendations for the UX of complex, web-based applications for biopharmaceutical research institutions.

Senior Graphic Designer, MOM's Organic Market

Rockville, MD 11/2014 - 1/2016

Directed all design aspects for 15-store grocery chain, including all in-store sales promotions, marketing materials, window displays, and corporate designs. Conceptualized and implemented design concepts and space planning for three new store openings; this included coordination with vendors and oversight of logistics and installation. Provided strategic leadership for team of two design professionals, assigning and evaluating tasks and deliverables.
